

Lab Sheet - 6

Objective(s):

- To understand programming with Strings.

Problems:

1. Write a program to demonstrate the use of string library functions: strlen(), strcpy(), strcat(), strcmp(), strlwr(),strupr() and strrev().
2. Write a program to find length of a string without strlen function.
3. Write a program to convert string into upper case without using function.
4. Write a program to find reverse of string without using function.
5. Write a program to copy string without using function.
6. Write a program to read N words and sort them in alphabetical order.
